

POCZĄTEK

PIĄTKOWO

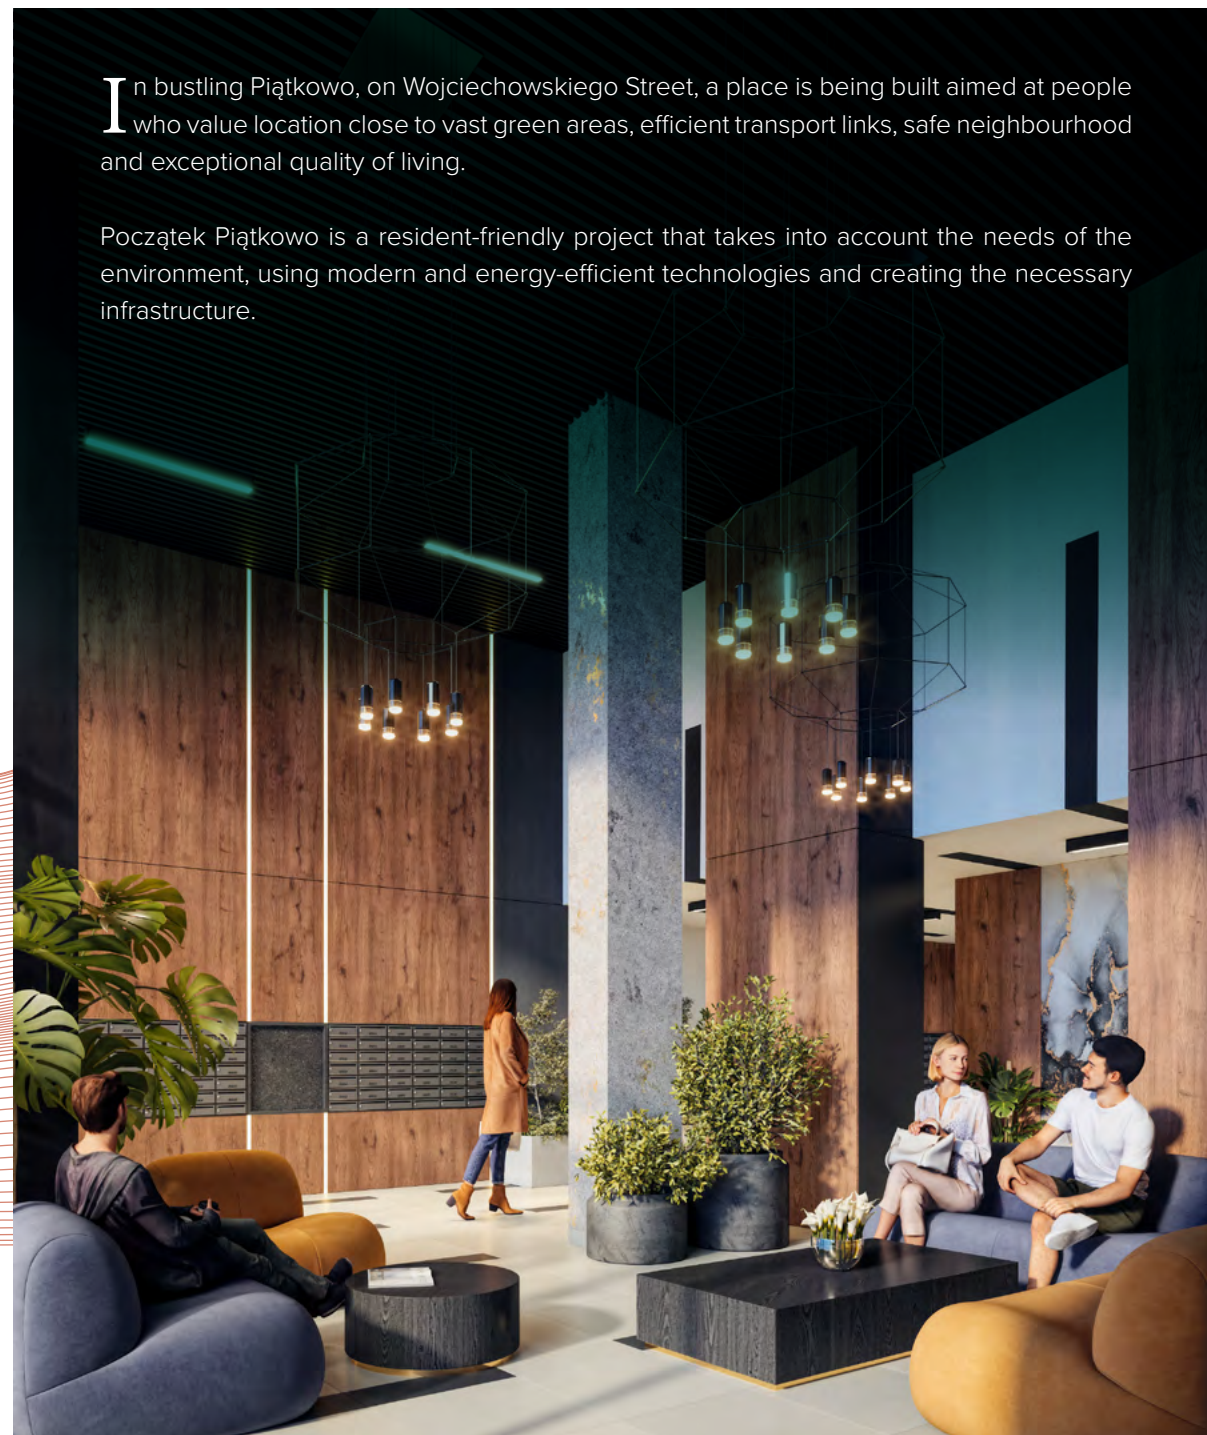

ROBYG

Your new home, Your new Beginning

In bustling Piątkowo, on Wojciechowskiego Street, a place is being built aimed at people who value location close to vast green areas, efficient transport links, safe neighbourhood and exceptional quality of living.

Początek Piątkowo is a resident-friendly project that takes into account the needs of the environment, using modern and energy-efficient technologies and creating the necessary infrastructure.

A place of new opportunities

Początek Piątkowo is a place where everyone will feel comfortable.

Timeless design, high-class common areas, and above all, a high standard of finish - the investment successfully combines modern architectural solutions with attention to comfort and convenience. The housing estate will also not lack space for relaxing walks, workout in the gym or spend carefree moments with the youngest at the playground.

Piątkowo in an innovative way

When designing the investment, the architects were guided by the desire to harmoniously and thoughtfully integrate the housing estate into the surrounding urban development. At the same time, great emphasis was placed on the buildings' aesthetics.

Spatially, the housing estate begins with tall buildings located along Wojciechowskiego Street. Then the quarter is filled with lower buildings, and the final accent of the landscape will again be constituted by tall buildings on the side of Obornicka Street. The façade of the buildings is created by an unusual combination of mineral tiles in shades of beige, graphite and brown. The glass balustrades add lightness to the whole and harmoniously interact with the panoramic windows and ultimately also with the interior of the apartments. The details, the high quality of the finish and the modern materials all create a unique and friendly place to live.

Quality and elegance in a unique style

ROBYG's hallmark is its special attention to quality and elegance.

The spacious and stylish lobby was designed using high-quality materials, and the entrance is adorned with vibrant flowers. The hallways are finished with wood-effect panels, which are also used as doorways. Thoughtful combinations of stoneware floor tiles complement subtle photo wallpapers and mirrored walls. The use of custom lighting adds a touch of elegance and sophistication to the buildings. The interiors of Początek Piątkowo were designed with comfort and functionality in mind.

A new standard in the city

Housing estates:

- **A unique space for residents** – the buildings feature representative entrance lobbies finished with high-quality materials.
- **Convenience at your fingertips** – the development features modern fitness areas for exclusive use by residents, as well as commercial spaces.
- **Comfortable green space** – abundant planting and numerous relaxation and recreation areas equipped with small architectural elements.
- **Fun and tranquillity** – playgrounds for various age groups and pedestrian-only areas ensure the comfort of all residents.
- **Privacy and security** – buildings with access control, as well as monitoring and security of the estate.
- **Warranty and reputation** – the developer's experience and manufacturer's warranty for all materials and appliances used in the building.

Apartments:

- **Individual relaxation space** – balconies and terraces up to 60 m² and spacious gardens up to 110 m².
- **A sense of space** – above-standard apartment heights of approximately 270 cm, and in selected apartments even 352 cm.
- **Quietness in every apartment** – brick partition walls with sound-absorbing properties.
- **Optimal finishing** – walls and ceilings painted white twice to speed up the finishing process.
- **Security and peace of mind** – secure and noise-insulating security doors, above-standard heights of approximately 210 cm.
- **Daily savings** – individual meters in each apartment allow for billing of actual consumption..
